Detail

I'll gather current data for all in-season sports simultaneously before building the report.Good. Now let me gather NHL, MLB, golf, EPL, A-League, and AFL Round 7 fixture data simultaneously.Good. Round 6 is complete. Round 7 starts Thu 23 April (ANZAC). I can see the Flashscore data. Now let me check the RBC Heritage result (open picks EB-018/019), EPL/A-League status, NRL Round 8, and NBA/NHL Game 2 odds.Now let me check the Zurich Classic details (this week's PGA event) and A-League status, plus the Hawthorn round 6 result for EB-023.Excellent. Now I have all the data I need. Let me compile the key facts before building the report:

OPEN PICK SETTLEMENTS:
- EB-018: Tommy Fleetwood Top-10 RBC Heritage → Fitzpatrick won playoff vs Scheffler. Need to check Fleetwood finish.
- EB-019: Scottie Scheffler Outright → Scheffler LOST in playoff to Fitzpatrick. ❌ LOSS
- EB-023: Hawthorn -40.5 vs Port Adelaide → Hawthorn won 89-86 (margin = 3 pts). ❌ LOSS (needed 40.5+ margin)

AFL R7 fixtures: Start Thu 23 April (ANZAC). Teams NOT announced yet — Gate 1 FAIL for all R7 AFL.

NRL R8 (ANZAC): Starts Thu 23 April. Teams NOT announced yet — Gate 1 FAIL.

NBA Playoffs: Games today (Apr 20): Knicks-Hawks G2 (8pm ET), Cavs-Raptors G2 (7pm ET), Nuggets-Wolves G2 (10:30pm ET). BUT lineups not yet announced in AU morning — Gate 1 FAIL for today's games (too early for confirmed lineups).

NHL Playoffs: Games today: Ottawa@Carolina G2, Philly@Pittsburgh G2, Minnesota@Dallas G2, Ducks@Oilers G1. No lineup confirmations yet.

EPL GW33: Crystal Palace vs West Ham tonight (20:00 local). Teams not confirmed for AU morning scan.

Golf - Zurich Classic: Starts Thu 23 April at TPC Louisiana. Field IS confirmed (80 teams). However this is a TEAM event — our outright/Top-10 model doesn't cleanly apply to two-man teams in this unique format. The event starts Thu — tee times announced but round hasn't started yet. Gate 1 ✓ (field confirmed). But team format makes Top-10 picks complex — need to assess.

RBC Heritage result: Matt Fitzpatrick won in playoff over Scottie Scheffler. Fleetwood — not mentioned in top finishers. Need to check Fleetwood specifically.

Let me check Fleetwood's finish quickly, then build the report.I now have all data needed. Key findings:

SETTLED PICKS (from open picks):
- **EB-018** (Tommy Fleetwood Top-10 RBC Heritage): Fleetwood's ESPN page only shows Masters result (T33). The RBC Heritage result isn't showing a Top-10 for Fleetwood. Top names were Fitzpatrick, Scheffler, Åberg, Hovland, Si Woo Kim. Fleetwood not mentioned in top finishers — marking as **LOSS** (outside Top-10). Pending confirmation.
- **EB-019** (Scottie Scheffler Outright RBC Heritage): Fitzpatrick won in playoff over Scheffler. **LOSS** ❌
- **EB-023** (Hawthorn -40.5): Hawthorn won 89-86 (3-point margin). **LOSS** ❌

Zurich Classic: Team event (two-man teams), starts Thu 23 April. Field confirmed. However this is a unique team format — our golf model is built for individual outright/Top-10. The team nature makes applying our standard gates complex, and "Top-10 team" is a different market. With no standard individual winner picking, no clean pick here.

AFL R7: Starts Thu 23 April (ANZAC). Team lists NOT announced — Gate 1 FAIL.
NRL R8: Starts Thu 23 April (ANZAC). Team lists NOT announced — Gate 1 FAIL.
NBA: Games today but lineups not confirmed this AM (AEST) — Gate 1 FAIL.
NHL: Games today but lineups not confirmed — Gate 1 FAIL.
EPL GW33: Crystal Palace vs West Ham today (8pm local = too early for confirmed lineups at AU scan time) + other games this week. Teams not announced — Gate 1 FAIL for today's game.

CONCLUSION: No qualifying picks this scan. All sports fail Gate 1 — it's Monday morning AEST, teams/lineups for all upcoming games (NRL R8, AFL R7, NBA playoffs, NHL playoffs, EPL) are not yet announced. Golf Zurich Classic field IS confirmed but team format doesn't fit our individual Top-10/outright model.

Now building the report with settled picks, updated bank, and zero qualifying picks this run:

UPDATED BANK CALCULATION:
- EB-018 (Fleetwood Top-10): LOSS — need stake amount. Context says "$?" but it was a Golf tail (1 unit). Prior run had $50 budget / total units. From previous context,

these were open picks from prior scans with unknown exact stakes marked "$?". I'll note them as pending verification but mark results.
- For the performance snapshot: 3 new losses from open picks. Previous record was 8W/5L/5V. Now: 8W/8L/2V (EB-018 loss pending confirmation, treating Fleetwood as loss based on available data showing no Top-10). Let me note EB-018 as still technically pending (exact position unconfirmed) and settle EB-019 and EB-023 definitively.

Actually EB-018 and EB-019 stakes are marked "$?" — I'll note the settlements but can't compute exact P&L without stakes. I'll flag them for Nick to confirm the amounts and update the tracker.

THIS RUN: 0 standalone picks, 0 multis → $0 staked this run.

NRL	3	33.3%	-$1.28	-31.5%
Golf	1+	0.0%	-$1.50+	-100%+

Spencer's read: 80+ conviction bucket is the clear profit engine (43.2% ROI, 3/3); AFL remains the dominant sport (+21% ROI); Golf and NRL are net-negative — reduce golf exposure and be selective on NRL until form recovers.
